테스트 전 확인사항

- ☐ 휴대전화의 전원을 껏습니다.
- ☐ 메모할 종이와 연필이 준비되었습니다.
- ☐ MP3를 들을 준비가 되었습니다.
- ☐ 답안 말하기 프로그램을 실행할 준비가 되었습니다.
- ☐ 시간을 체크할 시계가 준비되었습니다.

Question 1 of 4

Do you agree or disagree with the following statement? **It should be mandatory for children to attend school until the age of 16.** Use specific examples and details to support your opinion.

PREPARATION TIME

00: 00: 15

RESPONSE TIME

00: 00: 45

모범 답안 · 해석 p.146

Question 2 of 4

Reading Time: 50 seconds

Dear Editor,

Our university has a growing population of students who travel to the school by car. In light of this, I strongly urge the school to create more parking areas for them. As things are, too few spaces are available, so students frequently have to drive around campus searching for empty spots, which is a significant inconvenience. Furthermore, some students have even resorted to parking far off school grounds and riding a bus to campus, wasting their time and money. It is unfair that students have to do this when they are entitled to park on campus for free.

Sincerely,
Ross Decker

Now get ready to answer the question.

The woman expresses her opinion about the proposal described in the letter. Briefly summarize the proposal and explain the reasons she gives for holding that opinion.

PREPARATION TIME

00: 00: 30

RESPONSE TIME

00: 00: 60

Question 3 of 4

Reading Time: 45 seconds

Brood Parasites

How successful parents are at getting their offspring to maturity is a crucial factor in the survival of a species. And while many organisms put a great deal of effort into caring for their young, some species have developed an ingenious strategy, which is to rely on others to do the parenting for them. This phenomenon is most commonly studied in birds, and birds that lay their eggs in the nests of others are known as brood parasites. Because brood parasites do not have to invest in raising their young, they are able to perpetuate their genes with very little energy costs.

Now get ready to answer the question.

Using the examples of the brown-headed cowbird and the black-headed duck, explain how brood parasites behave.

PREPARATION TIME

00: 00: 30

RESPONSE TIME

00: 00: 60

Question 4 of 4

Now get ready to answer the question.

Using the examples of peacock flounder and leaf-tail gecko, explain two ways that animals use protective resemblance.

PREPARATION TIME

00: 00: 20

RESPONSE TIME

00: 00: 60
